BAKING MAJESTIC EMONSTRATION

MOW

OING

We heartily invite our friends to call any day during the above mentioned week and we will demonstrate the superior qualities of the

Malleable Char-New

The majestic Malleable and steel range as formerly turned out by the Majestic people has been considered throughout the entire country par-excellence, and far ahead of any other range made. But with the New Charcoal Iron Body in place of Steel, making it double its value, and the fact that it is the only range in existence made of Malleable and Charcoal Iron, you can readily see that if quality is considered, the Majestic leads by a big margin. We want you to call at our store during this week, and let us explain this new feature: -- Charcoal Iron Bodies; let us explain why it is the best material for range bodies, and incidentally, why it is not used on other ranges. We want you to call if you intend to buy or not, as the information gained will serve you in the future.

HOT COFFEE AND BISCUITS-FREE

Come any day during this week and have buttered hot biscuits and hot coffee. Biscuit baked on a Majestic in three minutes while you wait.

HANDSOME SET OF WARE---FREE

With every range sold during this Demonstration we will give absolutely free, one set of Majestic ware worth every cent of \$7.50. This ware will be on exhibition at our store. Everything useful, ornamental and durable. Come in and see it, and you will agree with us that it cannot be bought for a cent less than \$7.50, and it is cheap at that.

Come in any day, you are welcome whether you intend to buy or not

NABOTH,

Naboth,Jr.,is a rich red bay, six years old and full 16 hands high,weighs 1225 pounds, and is a horse of wonderful beauty, having a long, rangy neck and carrying a fine tail. He is a perfect gaited horse with superb all round action and like all sons of old Naboth he has great natural speed in harness and a greater racking horse can not be found in the State of Kentucky. I have been a dealer in fancy horses for ten years, furnishing them for all the markets in this country and I am anxious to encourage the breeders of horses to continue to raise better ones. As is generally known there is a scarcity of good horses, and those suitable for the Eastern mar ket bring fancy prices. If the breeders would raise "Number one" horses they must take the mares to the right kind of sires. Naboth, Jr., beyond all doubt, is a horse that will produce that type of horses that the market demands, and for which the public is willing to pay high prices. I purchased this great young stallion at a fancy price because he has size, style, action, beauty and breeding.
